🎯 Professional Profile

Passionate Full Stack Developer with solid experience in web and mobile development. Trained in both Canada and internationally, I have expertise in modern technologies such as React, Node.js, Firebase, and Java. Adaptable, meticulous, and team-oriented, I am ready to take on new technical challenges within an agile team.

🎓 Formation

Collège La Cité, Ottawa (ON)

Diploma of College Studies (DEC) in Computer Programming — January 2024 – April 2025

Relevant Courses: Web Development, Mobile Applications, Databases, Object-Oriented Analysis

Université Abderrahmane Mira, Béjaïa (Algérie)

bachelor's in computer science — 2019 – 2022

Relevant Courses: Data Structures, Algorithms, Networks, Operating Systems

📁 Professional Experience

Les sommets edelweiss, GATINEAU (QC)

Développeur Web Stagiaire — janvier 2024 – mars 2024

- Daily use of computerized systems for managing transactions and data entry, demonstrating proficiency with digital tools.
- Exercised sound judgment to efficiently resolve customer issues in a high-pressure environment.
- Excellent analytical and organizational skills to manage priorities and deliver smooth and effective service.
- Collaborated with various departments, demonstrating strong communication skills and team spirit.
- Able to work flexible hours while maintaining a high level of rigor and attention to detail

Stagiaire Développeur Web Full Stack

De mars 2022 à juillet 2022, SHIFTIN Alger (Algérie)

Durant ce stage de 5 mois, j'ai travaillé sur un projet interne de développement d'une application de gestion de projets collaboratifs pour une équipe de développeurs et designers.

- Developed a collaborative project management application for a team of developers and designers.
- Front-End Development: Built dynamic UIs using React, implemented reusable components, and managed state with Redux.
- Back-End Development: Created RESTful APIs with Node.js and Express for managing users, projects, and tasks.
- Database: Used MongoDB to store information related to users, projects, and interactions.

Stagiaire en développement Backend Java De juin 2021 à juillet 2021

Denzer Technologies Tazmalt (Algérie)

- Developed backend for an inventory management app for an SME, enabling real-time tracking of stock, orders, and suppliers.

- Implemented REST services with Spring Boot and used JPA and Hibernate for data management and interaction with a PostgreSQL database.
 - Worked within an Agile (Scrum) team to integrate features and write technical documentation.
-

Projects and Extracurricular Activities

Developer Portfolio – Next.js / Formspree (Mars 2025)

- Designed a personal website with a JS-validated contact form
- Deployed on Vercel

University Team Project (November 2024)

- Coordinated a team of 4 to build a reservation platform
- Successfully delivered and presented the project

Android Car Management App (May 2024 – August 2024)

- Technologies: Android, Firebase
- Features: Data entry, display, and filtering via Realtime Database

Skills

Programming Languages

- JavaScript, Java, Python, SQL, C#

Framework & Libraries

- React.js / Vue.js, Node.js, Express.js, Spring Boot, Bootstrap

Databases

- MongoDB, MySQL / PostgreSQL.

Development & Collaboration Tools

- Git, GitHub, GitLab, Docker, Postman, Jira, MS Project.

Methodologies & Modeling

- Agile/SCRUM, UML, Merise

Languages :

- Français (advanced), Anglais (intermediate)
-

Strengths

- Excellent adaptability to new environments
- Strong teamwork skills in agile contexts
- Good communication and analytical mindset.
